RAILROAD!

THIS GREAT WORK OF INTER-MHIS GREAT WORK OF INTERnal improvement (379 miles from Wheeling to
Baltimore, and 463 to Washington;) was opened to the
Olilo river in January, 1833, and has now been fully
tested and approved, both as a freight and passenger
rouse. This road is located in a romantic country, is
solidly constructed, fully equipped, and carefully
managed, and is thus rendered an attractive as well as
a safe line for travelers. The late completion of the
Central Ohio Road, from Columbus to the Olilo river,
near Wheeling, adds greatly to the importance of this
route, offering, as it does, the most thorough Raitroad
connection with the entire West. connection with the entire West.

THE ONLY THROUGH TICKETS BETWEEN
LOUISVILLE AND THE NATIONAL METROPOLIS
are sold by this road, which rans direct to Washington
without the delay of passing through Baltimore. It is
also the only line by which baggage can be checked to
Washington from the West. At Baltimore the road
makes a direct connection with the Railroad to Philawashington from the west. At battmore the load makes a direct connection with the Railroad to Philadelphia and New York, &c.

Passengers going East from Louisville, may proceed by steamboat to Cincinnati, and there take the Kailroad connect with this line, or may leave Loulsvilleby the Jeffersonville Railroad direct.

The Mail Steamers leave Louisville daily for Cincinnati, where they arrive so as to connect with the cars of the Little Miami Railroad at A. B. (or 5 r. M.) for Commbus, connecting there with Central Ohio Railroad, through Newara and Zanesville to Iselicair, on the Ohio, apposite Benwood staton, 4 miles below Wheeling. At his place the connection with the B. and O. Railroad is added direct. By express train of this route, the time

his place the connection with the B. and O. Railroad is added direct. By express train of this route, the time from Cinciunati to Baltimore is less than 25 hours, and o Wasnington less than 25 hours.

Not to keep her in a prison, she was lodged by the Commissioners at a boarding house in Elm street, where, about 7 o'clock, she was found engaged in prayer on the roof of the building, and almost in a state of nudity. Fearing an accident, she was sent to the Sixth Ward station house, where she remained until she was taken before Justice Connelly, who recommitted her to the care of the physician of the city prison. While in Court the poor girl divested herself of her bonnet and shawl, and, placing them over the railing, she walked round the inclosure and shut the gates. In writing an essay on the cuitivation and management of a corn crop, the writer of this will not strive so much to maintain a system in writing, as merely to contribute what he may know from practice.

Among the many requisites to insure a good corn crop, the period of breaking the land, according to its kind, whether it be tnrf, stubble, or land which had produced corn the preceding year, is of great consequence, and should be varied according to its tendency to wet or dry: and I will remark here, that I have but little faith in the benefits resulting from fall or early winter plowing, be-

Let it be recollected that these paragraphs appeared in the face of universal apprehensions of any manufacture, or it is inriolence, and were evidently intended to inflame is of the editor's own manufacture, or it is inone side and intimidate the other. They are indications from the leader of mob violence. We intend they shall stand for a while, till all

not here pointed at more clearly and effectually than if it had been dvised in direct terms:

One of the police officers informs us that he never before saw had so many Inshmen as he sees here now. He beholds them hourly in squads all over the city, and he snows not where they were brought from. Their faces are strange to him. No dount they came both to vote and to fight, then one of the operations would be quite enough. It is a shame that we Kentuckians should be imposed on merely because we are peaceable. Our pacific reputation has made the foreigners presumptuous. Such are the fruits of goodness.

From all quarters, we hear of preparations made on the anti-American side for a resort to violence at the poils. We hear, from a hundred sources, of organized bands of builtes, who, it is said, are to receive extraordinary prices for their rumsnity services. We hear of systematic arrangements of foreign-born persons, led on by native-born Sag. Nichts, to take foreible possession of the gedin on Monday morning or Sunday night, and to keep forcible possession of them until all the Sag. Nichts votes shall be poiled.

It was quite extensively said and believed a few days nave now authentic and affect information that they be determined that they will got to the polls. We are do bear that they have thus determined, but we see they will go with some but proper intentions. Surgicians of them can be so ignorant as not to understand, it, if a collision be provoked by them, it will occur, d, if it do occur, there is but one way in which it can subty terminate.

We are glad that the Germans have made up their mluds to go to the polls to-day. It is their right to go. We know, however, that they are going in obedience to the promptings of their own sense of propriety, and not at the instituation of the Sag-Nicht bullies and raffians who are well known to have organized a fighting band here for the work of to-day. Let the Germans go by all means to the polls, and, if there is time for all to vote, let them be sure to vote. But we cannot resist the conviction, that if there chall not be time in any particular ward to take the votes of the whole voting population; it a portion, for the want of time, must be debarred from the exercise of the chective franchise, then every consideration of courtesy and propriety and right strongly and suspersatively demands that the foreign-born citizens, comparatively strangers to our country and its institutions, mere guesta, as it were, upon our country's their andrages. We hope, and we have a rig oct, that they themselves in spite of the inflat y appeals of selfish and malignant demagogue we this view of the matter. It is the right view.

The Americans mean to be entirely pacific to-day, but they will vote. They may submit patiently to a great many inconveniences and discomforts, but they will vote. and the Democrats white. So far as I saw them, Tansey did not seem to be in a hurry to vote, and I requested him several times to go in; he said he would wait until the crowd was out of the way. At length he went up near the door, evidently with the intention of going in to vote. About this time there was not more than fitteen or twenty persons standing close up to the entrance door to the polis, a large majority of whom were bemocrats. There was a large crowd in the passage hallooing for Sam, Marshall, and Moorhead. Just then I saw the doorkeeper at the other door—the one for coming out—admit several persons, and walked that way to remonstrate with him on his conduct, when I heard some one exclaim, "We will take these polis," or "We'll clear these polis." Inmediately there was a rush of people pass me—Tansey and some other Irishmen running and a crowd pursuing with sticks, short and heavy, and some of them having metal on the end of them. They were not ordinary walking sicks, but were much too short to be used for walking, and must have been made for the parpose of fighting. The crowd rushed on after Tansey and others to the end of the court-house next to Sixth street, shouting "Move him!" "Kill them!" and such like hurrahs, but returned in a moment and said they had jimmped of the passage on the pavement.

When I was in the crowd that was pressing to get in to vote, I saw a number of men rush in the eastern door of the court-house, saying "Let us take these polls, and clean out the damned Irish." One of them who so came in knocked down an Irishman who was near the east door of the court-house. They tumbled him down the steps, and from the platform. They then made a rush at I ansey and Feeney, two Irishmen that were in the passage. Tansey and Feeney both ran towards the west end of the court house, the crowd pursuing and shonting. Both Tansey and Feeney were quiet and orderly. Neither of them were noisy or misbehaving in any way. The attendance at the Mechanics' Fair night af-

the pursnit of Tansey:

The Democrat well knows that Tansey was neither purshed nor assaulted nor imprisoned because he had voted. In the same article from which the preceding is an extract, the Democrat claims that Tansey was driven from the polis at nine o'clock, and that he voted without intetruption afterwards, and its own certificates show that he was so much embodened as to propose to bring up more men to vote or fight. But he was arrested and imprisoned in the atternoon of that day, the was found more than a mile from his own residence, among armed men, locked up in a house from which shots were fired at Americans passing upon the street; he desperately resisted the oliners of the law after the was informed of their authority, and currendered only after he had been disarmed; and for these offences he was arrested and imprisoned. the pursuit of Tansey:

There is the story of the editor again. Tansey was tracked to the house by the mob. They were there with stones and brickbats, and using them, of this life, we must before a gun was fired. The officers found one old gun, but he was among no armed men. He was arrested, all the evidence heard, and was dis- as the nigger said when he was overheated in charged. Not a word was preved against him. dog days. It was not proved before the Police Court that any Americans passing by were shot at. The proof was, that after the house was stoned and men chased into it by brickbats, one gun was fired out of the window.

The plain truth was, Tansey, was tracked by the hell-hounds, because he had voted, and showed no disposition to submit to be beaten. They followed nim up for being an Irishman that would dare act like a freeman.

This is the same infamous doctrine inculcated by the Democrat and its Sag-Nicht allies before the election. It was by such inflammatory and incendiary instructions to blood-thirsty foreigners that they were instigated to arm themserves and commit violence, and to murder modensive native-born citizens on the day of the election. Foreigners had a right to go to the polls in bands of lifties and hundreds, armed to the teeth, and shoot down in his tracks every American citizen who might question the legality of their votes, or who would not nicekly stand assie until these sovereigns, par exceptions, and the proportions and prisons, and deposited their votes.

THE MECHANICS' FAIR-FOURTH NIGHT .- Tho hall was filled again last night with a gay, fashionable and delighted throng. The first sound that boat owners who are in want of any kind of truck onrear as we entered was the music by the and. We have been informed that it was a new band, the members of which have been performing where they can have their work executed in a superior together only about one week. If this be so, they play in admirable manner--make good time, perform with considerable smoothness, and, Indeed, excellence; there is not that harshness from their instruments in a forte passage which we should expect and be willing to excuse in a newly organzed band. We understand the same company will play for the Rescue Fire Company at the grand parade to come off next month.

In our perambulations of the hall we stopped a ter night shows that our people generally take a few moments to admire O. Simon's portable steam engine. It is made for service, not show, and is me a call. just in the condition of an engine to be used where finish is not at all a requisite. It is of 12 horse power, moves very smoothly and regularly, has very little frietlon, and will prove an exceedingly economical piece of property. Mr. Simon deserves great credit for its production. Wo believe it is the first ever made in Louvisville. It was last night attached to a corn-mill, and was grinding out the meal in fine style. As we have said before, it is a portable engine-boiler and all being set on wheels, capable of being removed from one place to another ascircumstances may require. It would be an admirable accompaniment to Carpenter's portable saw-mill, a model of which is on exhibi tion, and which we shall describe another time. Another novelty of Louisville manufacture, and

one in which we were interested is J. E. l'riest's Paging machino for book-binders. We call it a nev elly, not because it is a new invention, but be cause Mr. Priest is the first mechanic of Louisville who has produced one. In the machines hereto fore made, and in genoral use throughout the west, a book of ten quires cannot be paged without calling Tansey. He had as well swear to it all in mass. lished at Lexington, Indiana. It is conducted by in the aid of the hand, because their figures do not run higher than 750. Mr. Priest's runs up to 1,050, large enough for any ledger or other blank book. And then it's price is so very low-only \$110, while others cost from five and six hundred to one thousifornia, when a coroner's jury was empannelled, and dollars. Mr. Priest does not claim for this machine that it will work as rapidly as the highpriced eastern ones, but it will do its work with as much accuracy, if not more, It is simple in its con struction, having nothing that can get out of order with proper use. Ho has made, so far, about ten, which have been sold in this city, New Orleans, Vicksburg, Nashville, St. Louis, Indianapolis, &c.; while the one In the exhibition was made and is intended for an establishment in New York city. If this is not carrying the war into Africa, we should be pleased if somebody would tell us what is? We have not room to give a detailed doscription of this neat piece of work, but will state thus much. The figures from 1 to 1050 are set upon the outer surface of a cylinder running around it spirally-the spiral corresponding in inclination exactly with the screw on the end of the shaft which passes through the cylinder; the latter, with every motion of the treadle, moves just far enough guided by a ratchet, to bring every number ex actly under the hammer, while the hammer itself is brought down by the same motion of the treadle. The machine is an exceedingly neat piece of mechanism, and of Itself establishes Mr. l'riest's reputation as one of our best mechanics. Its great ascuracy, neatness in working, and almost entire non-liability to disarrangement, will make it eagerly sought after. We may be permitted here to state that his first rough experiment at these machines has been in use in this city for two

> vears, as yet without repairs. end of town day before yesterday, and the lower hape.

We call attention to the arrangement made by the managers of the Agricultural Society for the convenience of its members who attend every day with provisions, &c., for their families and friends. The stalls under the amphitheatre are to be rented for this purpose. They are fixed with hasps and staples, so that a simple padlock will secure everything put there. The rent for each one, a dollar per week, is so small that families who procure them will be more than repaid in the convenionce afforded. There are only seventy-four of these stalls, and it will behoove those who wish to procure them to apply at once to one of the committee who have them in charge. The committee is Messrs. Meriwether and Speed. There is every prospect of a fine exhibition, and every arrangement is being made which is necessary for the comfort of the visitors. Strict rules for the police have been adopted, and vigilant and effective officers have been procured. No one should fail to attend every day, as the exhibition is so arranged as to make every day attractive.

REPORTED BANK FAILURE.—A telegraphic dispatch in another column informs us of the reported failure of the Atlanta (Georgia) Bank. It would bo well to refuse it for the present.

We again are under obligations to our good delivery of Cincinnati exchanges in advance of the mail distribution.

GETTING MORAL. - Our city is becoming actually moral-ln public, at any rate: there were only three cases before the Police Court yesterday.

Lexington Races.

LEXINGTON, Sept. 27. Messrs. Editors: The race to-day was for the association purse of \$450,3 mile heats. The entries were Nannie Lewis, Graves' filly, by Yorkshire, Warfield's Waxey, McIntyre's Wagner Moore, and that Know-Nothing horse.

Nannie was the favorite at 2 to 1 against the field, with plenty of fielders. They were called up and started for the first heat. Nannie Lewis led the entire three miles, sometimes nearly lapped by Waxey. The other horses were not running for the next except Know-Nothing; he made a brush down the last quarter, but he had too much to do, and his rider took him in hand. Nannie Lewis won the heat by half a length, Waxey second, Know-Nothing third, McIntyre foutrh, Graves

last. Time of the heat 8:491/2. Nannie Lewis was still the favorite at large odds with free takers. Know-Nothing was well thought of in the race, to beat the other horses; his friends thought he had learned something, and they bet some dollars he would beat Waxey and Graves' y. They all appeared in good condition to run other heat. They were started for the second

Waxey and McIntyre started off together at a good pace, and went to the half-mile pole lapped, when Nannio Lewis could not be held, and passed when Nannio Lewis could not be held, and passed them as if they were tied to the fence; but the boy on her got her stopped a little, and in the first mile Nannie was a length ahead of McIntyre's mare, Waxey third, Graves fourth, Know-Nothing last on the list. They continued on in this way for the next mile. On passing the stand in the second mile Graves' filly started after Nannie lowis, but sho could not catch her, and Nannie, came home in a close run, winning the heat and race, Graves' filly second, Waxey third, McIn', yre fourth, Know-Nothing had not learned saything since apring, and he was where he will often be, dis tanced.

this Remedy, not more valuable as a Cure, thun it is as a preventive. No class of disease is so easily managed as the one under consideration, if the medicine be taken in advance. This is owing to literdiseases being produced by one and the same cause, and therefore all, both residents and travelers, should protect themselves by the timely use of this preventive, and not wait for the purson already luraning in their vens to develope itself in a violent attack. Take the Cure as a preventive, and so destroy the polson before it does harm.

Maxwell, Delaware co., O., Aug. 19, 1855.

Mr. J. A. Rhodes—Dear Sir. Your medicine has met with the most favorable success in this neighborhood. I have about five bottles left. I gave it to them at first "if no cure no pay," although I was not authorized by you to do so; but I took the responsibility on myself. But not a bottle has come back, and as I am almost out of the article, I wish you would forward me one gross of bottles if you see proper to do so, and I will be punctual in payment. I inclose fifteen dollars on the medicine I have received, for which please send me are erecipt. To the Public. MR. SOLOKONS-Dear Sir: I called noon you at your mice, on Fourth street, in December last, and told you hat I had purchased several pair of Spectacles at di ferent stores, but had never obtained any that did not canse great pain and satigue to the eyes, but am happy to state that the pair I purchased of you suit beyond my expectations, by day and candle light. I have found my sight improve so much since I have used them, that I cannot sit down and read small print without them. Wishing you every sucess your great enterprise de serves, I remain, yours truly, S. HILLMAN.

LOUISVILLE, KY., Feb. 24, 1856. Ma. G. Bolomon-Dear Sir- Having satisfactorily arted a pair of Spectacies purchased of you, and finding them far apperior to any I have ever used, in that they rest and strengthen the eye, whilst all others have pained, wearied, and weakened my sight, I cordially recommend them to the nee of all who stand in need of them.

Respectfully yours,

Un Broadway.

JEFFERSON CO., Dec. 2, 1854.

I have used Mr. Solomons' Eye Glass for a very brief eriod, with decided advantage, and have no hesitation stating that a defective vision of long standing has een relieved, and the organs seem to be acquiring vigo and tone. I therefore cheerfully bear testimony to their excellency and accuracy, as also to Mr. Solomens skill as a practical Optician, and the wonderfulfacility with hich he adapts his Glasses to the various peculiarities of vision. More Light on the Subject. A BLUE AND WHITE Double Quick Work Bky Light just introduced by EOESBERG, enables him to take Daguerreoty pes in a few seconds and for the greatly re duced price of 50 cents and upwards. Itls also one of the bestlights ever known to produce correct likenesses, either of children or adults. The red hair and blue eyes have heretofore been difficult to take; but it is no longer any trouble to give them the real artistic disposition of light and shade. The new Sky Light operates as wellin cloudy as in clear weather, and gives the likeness the true tone of life. The public will therefore look to their own interest by calling on Roesberg before going to any other gallery, as there you can buy cheaper, receive a better case, and a much truer Ekeness than at any other

But they hang life sweet roses On the edge of the tomb. Blessings they bring no, As lovely as brief; They meet us when happy, And leave us in grief.

Hues of the morning, Tinging the sky, Come on the sunbeams. And off with them fly. Shadows of evening Hang soft on the shore,

So life's better moments In brilliance appear, Dawning in beauty,
Our journey to cheer.
Round us they linger,
Like shadows of even; Would that we, like them, Might melt into Heaven.

AN BLOQUENT LETTER.-We make the following extract from the letter of acceptance of E. D. Beach, Esq., the Democratic nominee for Governor of Massachusetts:

"It is a position wholly unsought, and well pleased I should have been had the honor fallen on some one of larger experience in the public service, and of more eminent fitness for the duties

"At a time like the present, when the wild waters of strife are lashed into violence, to float mubitious men into office; when liberty of con-cience and individual rights are invaded with a ecklessness that alone arms anarchy with a power intolerance is elevated as a test of political merit, the sole passport to favor; when the good old way of reaching moral results by precept and practice are scouted as the cast-off relies of a past age, and their places supplied only by penalties and imprisonment; when the bitterest and most dangerous elements of sectional animosity are invoked to array one portion of our common country in hostile antagonism to another portion; the spirit of particism would seem to demand of all her lawful votaries not only unbending firmness and integrity, but a devotion to the public service of the produce of the lawful to the public service of the lawful to the public service of the lawful to the lawful to the public service of the lawful to the votaries not only unbending firmness and integrity, but a devotion to the public service of the wisest counsels and the ripest experience within her call.
